\*\*\* Monthly rates are based on 30 days, Quarterly rates are based on 90 days, Annual rates are based on 365 days  
 \*\*\* Actual monthly and quarterly bills will be calculated based upon the total number of days between meter readings and multiplied by the applicable rate. Such readings may include total days in excess of or short of 30 and 90 days, respectively.  
 \*\*\*A five percent (5%) penalty shall be applied to all principal amounts due after a bill is five (5) days delinquent. Concurrently a one percent (1%) interest shall be charged to all previously billed principal amounts which remain due and owing. Every thirty (30) days thereafter a one percent (1%) interest shall be charged to all principal amounts due and owing.  
 \*\*\*The bills for any United States Federal Government agency, military branch or similar federal entity shall be due and owing within thirty (30) days of the billing date.
