Re: Access Driveway and Box Culvert

Dear Resident,

This is a follow-up to an August 11, 2021 letter from our office regarding a construction contract for installation of a driveway from Sawyers Way to Horsham Water and Sewer Authority's Well 26, located at the end of Beaver Hill Rd. The contract requires relocation of sanitary sewer adjacent to Sawyers Way.

The Authority has been informed that the contractor performing the work, Doli Construction Company anticipates commencement of the sewer relocation work the week of September 27, 2021. While Sawyers Way will remain open during construction, the Contractor will be working in the road, traffic control will be in place, and lane restrictions may be required at times. This portion of the work is anticipated to last approximately two weeks. Once the sewer relocation work is complete, the Contractor will demobilize and return for construction of the driveway and box culvert at a later date. We appreciate your patience as we begin this important project.

As a reminder, if you have not done so already, you are encouraged to sign up for email updates on the project. You may do so by going to the Authority's website at <https://www.horshamwater-sewer.com> and select the orange Receive Updates button on the home page. You should complete the contact form; under the projects section of the form, check off Well 26 Access Driveway. All future updates regarding this project will be provided via email or our website.

Very truly yours,

A handwritten signature in black ink that reads "Tina M O'Rourke".
