Re: PA Bulletin, Doc. No. 19-1386
NPDES Permit - Industrial Waste
Horsham Air Guard Station
Application No. PA0245046
Authorization ID No. 1243037

Dear Reza Chowdhury,

Please consider the following comments with regard to the above referenced application:

1. Was a study prepared regarding potential modifications of hydrology and hydrogeology regimes due to operation of the proposed treatment system that discharges to the Unnamed Tributary to Park Creek?
2. Does the WQM permit required for this NPDES permit include a groundwater study? If so, what is included in the groundwater study?
3. Outfall 003 discharges to the northeast to an Unnamed Tributary to the Little Neshaminy Creek, not Park Creek.

Thank you for your consideration of these comments.

Very truly yours,

Tina M. O'Rourke
Business Manager
