Re: Horsham Water & Sewer Authority
Area A Flow Transfer Project
Elimination of County Line Road Pump Station

Dear Resident,

This is a follow up to our letter of September 19, 2019. You are receiving this additional correspondence because your property is in close proximity to the existing sewer pump station located between 657 and 701 W. County Line Road.

This pump station, known as the County Line Road Pump Station, will be eliminated as part of the construction project. The site on which the pump station is currently located will be restored to meadow following the demolition. The access area to the pump station will remain for the purpose of maintaining the existing and proposed underground facilities.

Should you have any questions about the pump station elimination or the project in general, please feel free to contact our office.

Very truly yours,

Tina M. O'Rourke
Business Manager
