Members of the HWSA Board (Horsham Water & Sewer Authority) accept grant funding from the MIRIA (Military Installation Remediation Infrastructure Authority). The check was presented to HWSA by Representative Todd Stephens, Chair of the MIRIA as well as other MIRIA board members. This grant allows for the refund of surcharges paid by HWSA water customers over the last few years. The surcharge helped ensure HWSA's water supply was safe from PFAS. This grant was made possible by an incredible joint effort between the Commonwealth, MIRIA, HWSA and Horsham Township.
